### Chairman’s report

*Happy New Year !!!  
 The Brighter and Better Years are ahead  
 of IEEE HK Section !!!*

#### 1. A New Start for Hong Kong Section

I am confident that Hong Kong (HK) Section will have a better and brighter year than the past, despite the fact that Mr YW Liu (the resigned 2016 Interim Section Treasurer and Secretary) and Mr Edward Cheung (the [iee.org.hk](http://iee.org.hk) domain holder and the self-proclaimed external Section liaison officer 2016) are fond of keeping a “winter of despair” for HK Section.

#### 2. False claims by ICSPCC2017

In 2016, when YW Liu and the CAS/COM Joint Chapter requested HK Section to co-organize/co-sponsor the International Conference on Signal Processing, Communications and Computing (ICSPCC2017) held from 22 to 25 October 2017 in Xiaman, Fujian, China and/or endorsed their MOU in 2016, HK Section had explicitly declined the request or any involvement in the ICSPCC conference in Section meetings.

HK Section declined to be involved in ICSPCC for the main reason that the accounts of ICSPCC in the past years have never presented/revealed to HK Section for discussion to rule out the possibility of money laundering, even though HK Section was a co-organizer/co-sponsor of ICSPCC for several years. In fact, HK Section had been a financial co-sponsor since the 1<sup>st</sup> ICSPCC conference held in Xi’an, China, in 2011. It is noted that YW Liu has been the Finance Co-chair of the ICSPCC conferences all time and has also been heavily involved in the CAS/COM Joint Chapter operation. However, YW Liu has never submitted the ICSPCC accounts to HK Section for discussion and comment. In all these years, HK Section has been kept in the dark, never known the profit/loss of ICSPCC and how the money of the conferences in the past years has been spent. Hence, HK Section has declined to co-organize the ICSPCC2017. Nevertheless, the CAS/COM Joint Chapter, ignoring HK Section’s

decision and the CAS/COM Chapter’s legal authority and legitimacy, still financially co-sponsored and signed the MOU to sponsor the conference by itself.

Recently, it has been brought to HK Section’s attention that the ICSPCC2017 had made falsely claims in its website (<http://www.icspcc.org/2017/>) (Appendix I) that the conference was sponsored by HK Section and the Track Chair, Peter TAM, was from HK Section, and the University of Hong Kong was a supporting organization. These were false claims which I have complained to the Manager of the IEEE Meetings, Conferences & Events (MCE).

### 3. False claims again by ICSPCC2018

After the false claims made by ICSPCC2017, it is brought to HK Section’s attention again that the ICSPCC on its website (<http://www.icspcc.org/>) (Appendix II) has been continuously making the false claims that the ICSPCC2018 conference is sponsored by HK Section and the Track Chair, Peter TAM, is from HK Section, and the University of Hong Kong is an supporting organization. I have again made a complaint to the Manager of the IEEE Meetings, Conferences & Events (MCE) about the false claims. The ICSPCC2018 website indicates that, YW Liu is again the Financial Co-chair, who is the resigned 2016 Interim Section Treasurer who refused to handover any reimbursement claim forms, claimed receipts or ledgers, and bank statements to HK Section.

### 4. Voter registration in the ITFC 2017

The members of two local Chapters, the Joint Chapter on Circuits and Systems/Communications (CAS/COM) and Computer Chapter, are eligible to opt to be ITFC electors/voters. The Registration and Electoral Office (REO) of HKSAR has been reviewing the eligibility of members of the CAS/COM and Computer Chapters as ITFC electors/voters.

In response to REO’s query and Section’s advice, the Computer Chapter has done a good job for their members in taking care of the reporting requirement of its members’ 2017 registration to the REO.

However, the CAS/COM Joint Chapter has refused to carry out its duty/responsibility to meet the REO reporting requirement. In fact, the CAS/COM Joint Chapter had never updated HK Section its status on whether they had held the AGM2016 or they had any officer nominations of 2017. In the past year, Ray

Chak Chung Cheung claimed to be the Chair of the CAS/COM Joint Chapter but repeatedly refused to carry the important responsibilities such as taking care of the reporting and liaising requirement of its members’ 2017 registration to the REO. With the instruction from IEEE/HQ, I have to take over the responsibility of the Chair of CAS/COM Joint Chapter to take care of the reporting and liaising requirement of CAS/COM Joint Chapter members’ 2017 registration to the REO. As a result, Ray Chak Chung Cheung has been removed from his self-proclaimed Chair post of the CAS/COM Joint Chapter and he now has no official position to represent the CAS/COM Joint Chapter.

### 5. Section Finance

It is taking longer than expected to recover the bank accounts. However, I believe we will have good news in the coming issue of newsletter. Once we have any updates, we will promptly inform members via newsletters, start reimbursing expenses for chapters which have joined the Section’s centralized accounts, and financially support Section and chapters to organize activities. Thank you for your patience!

**William SW Cheung**  
 Chairman

## Chapter activities:

### The IEEE Hong Kong Information Theory Chapter

The IEEE Hong Kong IT chapter organized a one-day workshop on information theory and mathematics. Excellent talks were given by six renowned experts in information theory. Prof. Janos Körner from Sapienza Univeristy of Rome, who is a Shannon award recipient, was one of the speakers.

## News

We have a very successful ICSPCC 2017 in Xiamen. The Conference is well attended by 300 Delegates and total 267 papers are published in the Conference Proceedings.

The Proceedings will be forward to IEEE Explore to be listed in the IEEE Digital Library soon. There is current agreement between IEEE and Elsevier that the presented ICSPCC2017 Conference Papers could also be searchable in Engineering Index (EI). The process normally takes some 3 months.

The conference organizing committee decided that the ICSPCC2018 is to be held in mid September 2018 in Tsingdao, China. Call for Paper will be announced in end November.

Thank you supporting ICSPCC.

## CALL FOR PAPERS

The 2018 IEEE International Conference on Signal Processing, Communications and Computing (ICSPCC 2018) will be held in Qingdao, China, in September 14-17, 2018. The goal of the conference is to bring together leading engineers, researchers and academics from the world to discuss novel theories, technologies and applications in the areas of signal processing, communications and computing. The conference will feature prominent plenary speakers as well as technical sessions.

Qingdao has beautiful scenery and pleasant climate. A harmonious picture of mountains, sea and city is painted in which one can see the winding coastline, islands and beautiful buildings whose red-roofs are held in the embrace of verdant trees. Many of the European-style buildings used to be home to many famous figures. Qingdao is famous in China for its delicious fresh seafood. The Laoshan Scenic Area has an important position in sightseeing because of its beautiful scenery, natural pearls and exquisite crafts. Qingdao beer (Tsingtao beer), a popular beer brand in the world, is produced in Qingdao, allowing tourists to easily get the freshest Qingdao Beer in Qingdao.

*Topics for the conference include, but not limited to*

- |   |  |
